

REMARKS

Entry and consideration of this Amendment are respectfully requested. Claims 1-9 are all the claims pending in the application.

Applicant thanks the Examiner for indicating in the Office Action dated June 10, 2004 that claims 5, 7, and 8 contain allowable subject matter. These claims are amended, as indicated herein, to place them in independent form.

With respect to amended claim 1, Applicant submits that the prior art does not teach or suggest each and every limitation of this claim including at least "wherein said normal reception sensitivity is not related to a deactivated state." Applicant submits that dependent claims 2-4, 6, and 9 are patentable at least by virtue of their respective dependencies from independent claim 1.

Respectfully submitted,
